

Mazak SMOOTH Link

Digital Tool for Improved Production Efficiency

SYNC YOUR MACHINE WITH A MOBILE DEVICE

Perfect for small shops, Mazak SMOOTH Link makes it possible to monitor and manage your machine status at anytime from a smartphone, tablet or laptop computer. Designed to sync with MAZATROL Smooth CNCs, this digital tool captures real-time information from the control and securely transfers the information to a mobile device via Wi-Fi.

Mazak SMOOTH Link PROVIDES:

- Access to real-time monitoring, cutting tool and program data from a mobile device with Wi-Fi access
- Admin and general permission levels that grant full or limited user access to certain functions
- Tooling and program rewrite capabilities from a remote location for those with full user access
- Browser selection by supporting Internet Explorer®, Fire Fox®, Google Chrome® and Safari®

MACHINE MONITORING SCREEN

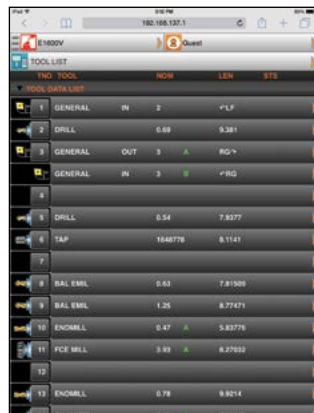

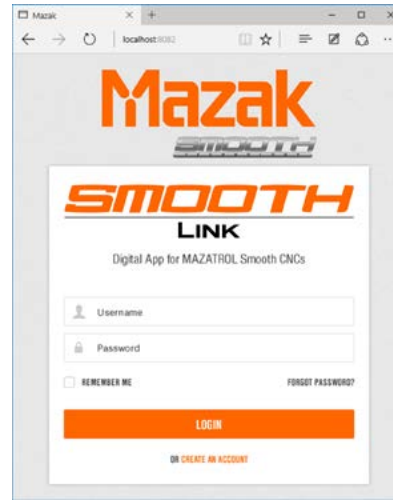

This screen features information on the operational status of a machine as well as the status of the workpiece during production. Alarm signals can be viewed on this screen as well as the other two.

TOOL MANAGEMENT SCREEN

This screen shows all the tool layouts for a machine as well as the tool types for assigned pocket numbers. If the user has the authority to write tool data, it is possible to rewrite tool data remotely using the app.

PROGRAM LIST SCREEN & EIA PROGRAM SCREEN

This screen shows all of the programs saved to the CNC, including how much storage space is available. If the user has the authority to write a program, it is possible to rewrite a program remotely using the app.

WANT TO INCREASE UPTIME BY KNOWING WHAT'S GOING ON WITH YOUR MACHINE AT ALL TIMES?

Contact your local Mazak representative at **859.342.1700** and ask about Mazak SMOOTH Link.
